Inside our Classrooms: K-1 Job Fair

Our K-1 students have begun a new storyline unit and have been asked to create their ideal neighborhood. In order to do this they have been researching the neighborhood that LFCSA is a part of. They took several walking field trips where they visited the businesses that make up the Media Center Complex. They also spent a morning in the Super King Supermarket learning about all the different people that work in a supermarket.

Today parents had the chance to share their jobs and hobbies with students during a job fair. Each parent set up a booth and talked to visiting K-1 students about what makes their job/hobby unique.

Students learned that a neighborhood is made up of a diverse group of people who do many different things. Hopefully the job fair will inspire students when they are creating characters to live in their ideal neighborhood.

A big thank you to the parents who volunteered to share their job/hobby with our K-1 students today!
